

BOND LOUNGE BAR MELBOURNE

MELBOURNE | JUNE 2015

ARCHITECT: HACHEM

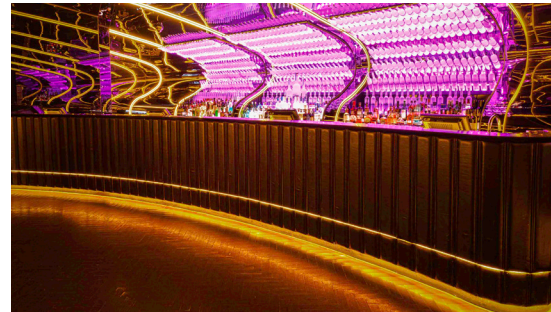

EST. PROJECT VALUE: \$5 Million

BRITEX PROJECT MANAGER: Mr. Scott Fowler

BRITEX PROJECT ROLE

The recent 5 million dollar refurbishment of Bond Bar Melbourne followed a curvaceous theme throughout, from the padded sweeping walls to the round leather stools and chairs, the award winning interior of Melbourne's premier luxury venue needed a set of bars to match. Working closely with architect firm Hachem we were able to design and develop our first round and curvilinear stainless steel bars; innovating a material that although known for its strength, longevity and hygiene - perfectly suited to hospitality projects- has only been used in rigid and linear forms. The result is a glamorous perfectly round bar as you enter the alluring event space and a sleek longer curvilinear bar that follows the wave of the walls on the ground level. Hachem recently won the 2015 Overall Annual Best Club Space Award from the Modern International Design Awards for Bond Melbourne.

(L-R) Stainless Steel Custom Fabricated Curvilinear Bar Complete with Curvilinear Benchtop and integrated sinks, Stainless Steel Custom Fabricated Circular Round Complete with Benchtop and integrated sinks.
