

Yarra Valley Grammar

YARRA VALLEY, VIC | JULY 2021

PLUMBER: Eastern Plumbing

BUILDER: 2Construct

BRITEX PROJECT MANAGER: Britex VIC

Britex is proud to be involved in the brand new Fine Arts Building at Yarra Valley Grammar in collaboration with Eastern Plumbing and 2Construct Builders. Spanning over three floors, the dedicated independent learning space focusing on design and technology is fitted out with a whole suite of Britex stainless steel products including over 20 made to measure art troughs.

The TP8 Art Troughs, ideal for education projects are designed with radius corners making them hygienic and easy to clean and maintain. Versatile and customisable the troughs are available inset or wall mounted, in stocked and custom lengths and can be paired with our wide range of commercial tapware.

Other Britex products for the new Fine Arts building facility include:

- Britex Stainless Steel Art Trough (TP8)
- Britex Stainless Steel Compact Knee Operated Hand Basin with Spout (HBKOC)
- Britex Stainless Steel Recessed Drinking Cubicle with Bottle Filler (DRDC)
- Britex Stainless Steel Laboratory Bowl (LB4)
- Britex Stainless Steel Screen Print Trough (TSP)
- Britex Stainless Steel Basin Mounted Sensor Tap (AESB)
- Britex Stainless Steel Pre Rinse Unit Wall Mounted with Pot Filler (TW-PR-WMP)

(L-R): Top - A view of the new Yarra Valley Grammar Fine Arts building, views of Britex Stainless Steel Inset Art Trough, Britex Stainless Steel Compact Knee Hand Basin with Spout.

ABOUT

Yarra Valley Grammar's latest addition to the school grounds is the three floor Fine Arts Building. Showcasing student work and inspiring creativity, the new facility provides the school community with an exceptional space for visual arts. With a dedicated art gallery and open spaces, students can work freely either independently or in groups.
