(L-R): Britex S.S. 1500mm No. 4 Pattern Troughs and Britex S.S. Sanistep Urinal.

ABOUT

Established in 1914, the St Kilda Life Saving Club exists to guard one of Victoria's most populated metropolitan beaches. The St Kilda foreshore beach is patrolled by highly trained and skilled surf lifesavers every Saturday, Sunday and Public Holiday throughout summer in order to keep the 52,500 visitors for the year safe. The newly refurbished St Kilda Life Saving Club facilities offer picturesque views over Port Phillip Bay and Melbourne CBD, while incorporating a function space, kitchen, clubhouse for lifesavers, offices, public amenities, first aid room, change rooms, patrol and observation platforms and storage spaces.
