

BTX-AL-300

Britex Anti-Ligature Grab Rails 300mm

Britex Anti-Ligature Grab Rails are manufactured from heavy gauge grade 304 S.S. and are ideally suited to jails, detention centres and mental health facilities. These suicide resistant grab rails prevent self-harm and can be manufactured to custom lengths, shapes and specifications as required, with drainage holes or with a sloped capped off end for maximum ligature resistance.

BTX-AL-300: 300mm long
