- Adjustable support legs
- Secure access hatch
- Suits swivel basin mixer

about

The *BRITEX Stainless Steel Janitorial Unit* is a great space-saving fixture for cleaner's rooms that traditionally don't provide much floor space. The Janitorial Unit combines both a bucket sink with hinged grate and a generous sized hand wash basin. Suits a swivel-style tap mounted at the front of the basin, which can be used for hand washing when over the basin and for bucket filling when adjusted to be over the sink area below. A fully welded construction ensures great overall strength and durability and a service panel at the front of the unit provides access to install/maintain plumbing connections. Supplied with adjustable legs, mounting bracket and waste outlet.
