- 40mm waste outlet
- P trap installation
- Reinforced bowl rim
- 1,2 or 3 tapholes
- Optional anti-ligature waste
- Suits detention projects, holding cells, parks and recreation and bars

about

The *BRITEX Stainless Steel Oval Security Basin* combines maximum security vandal resistance with the highest quality workmanship and style. Key to its design is a fully welded, radiused front edge that conceals a solid 25mm stainless steel bar within to ensure maximum resistance to any applied forces. A rounded profile above and below the basin also ensures there are no ligature points and all fixing points are concealed. Plumbing connections are secure within the stainless steel shroud that can incorporate an access panel if fixing from the front and an anti-ligature security waste is optional. Can be supplied with security tapware for maximum vandal resistance.
