features and benefits

- Standard and custom sizes available
- Smooth surface for comfortable seating
- Stainless steel wall mounting plates for bolting for additional safety
- Ultra vandal resistant
- Anti-ligature design
- Fully welded, heavy duty construction

about

The *BRITEX Wall Mounted Fixed Stool* is used in detention facilities and holding cells, due to its heavy duty design. With a 14 gauge stainless steel top, 10 gauge back plate, 10 gauge steel support and 1/4" thick mounting plate, the solid stainless steel construction and ligature proof design makes it perfectly suited for use in environments where security is of upmost importance. The stainless steel wall mounting plate for bolting to the wall makes the stool ultra vandal resistant and reduces the risk of tampering.
