ABOUT

The Elms Court Unisex Accessible Amenities located at 5 Elms Court Gowanbrae was developed as part of Moreland City Council's Public Toilet Strategy. In an endeavor "to provide safe, accessible, clean, and environmentally sustainable public toilets across the City", the Council has constructed the toilet facility in line with DDA compliancy for accessibility. The new toilet block has been designed to allow for the surrounding space to become a destination for extended periods for socialising, exercise, commuting and accessing community and commercial services.
