ABOUT

The Lilydale Community Childcare Inc. was originally formed in 1997 to operate the Lilydale Childcare Centre in Melba Avenue, Lilydale on behalf of Swinburne University - an arrangement which has since been extended to include the Croydon, Wantirna and now Lilydale Centres. Managed by a Committee comprising of industry members, parents and Swinburne University, the newly constructed Swinburne Children's Centre is set to open its doors to the community in June 2020.
