

Burnie Foreshore Toilets

SOUTH BURNIE, TAS | 2021

BRITEX PROJECT MANAGER: Britex VIC

An eye-catching set of upgraded public toilets and change room facilities on the foreshore at South Burnie, Tasmania.

With standard and accessible fixtures, the four toilet and change room cubicles got a major facelift complete with Britex products. Working alongside Burnie City Council, Britex supplied a range of toilet suites, accessible hand basins, grab rails, beach showers and other washroom accessories.

We understand the importance of incorporating vandal resistant, low-maintenance, water efficient products into public amenity designs without compromising on aesthetics. These products are all robust, long wearing and easy to maintain.

BRITEX products featured in this project include:

- Britex Ambulant Toilet Suite (PTSAM)
- Britex Accessible Toilet Suite (PTSD)
- Britex Wall Mounted Toilet Pan (PWM)
- Britex Accessible Bellagio Basin with Integrated Side Shelf (HBBEL-DS)
- Britex Bellagio Basin (HBBEL)
- Britex Basin Mounted Sensor Tap (TW-9110)
- Britex Beach Shower (BQBS)
- Britex Polyurethane Backrest with Grab Rail Set (BTX-BRC-L90)
- Britex S.S. 90° Ambulant Grab Rail (BTR-01-058)
