features and benefits

- Standard (100L) and custom sizes
- Quick release lid
- Sealant rubber gasket under lid
- Quality components for durability
- Installed above ground
- Purpose built to suit your application
- Grade 304 or 316 S.S.
- Ideally suited to commercial kitchens, screen print work shops, and mild chemical preparation areas

about

The *BRITEX Solvent & Oil interceptor* is manufactured from 1.2mm grade 304 stainless steel. This unit is generally used in commercial kitchens and mild chemical preparation areas to separate and draw off grease, oil and solvents from waste water. Internally, the baffle slows incoming waste water, allowing solvents/oils to separate from the clean water, floating to the top, whilst the clean water draws to the bottom, entering the waste outlet positioned at the bottom of the tank. A sampler valve is fitted as standard to monitor water conditions. Available in custom and standard sizes.

sample spec. text

BRITEX grade 304 S.S. Solvent & Oil Interceptor - 850L x 400W x 500H O/A. 100 Litre capacity. Lid sealed with an internal rubber gasket and quick release clips - Product Code OSSO
