features and benefits

- 1.5mm Grade 304 Satin Stainless Steel
- Great space-saving design
- Affixed from rear
- Highly vandal resistant
- No ligature/leverage points
- Pre-plumbed with timed flow tapware (WELS and WaterMark certified)
- Concealed plumbing connections
- Optional anti-ligature waste
- Suits detention projects, holding cells, public amenities and bars

about

The *BRITEX Stainless Steel Recessed Security Basin* is the perfect space-saving fixture for smaller areas that require optimal vandal resistance such as holding cells and public amenities. It can also be used in public spaces by being inset into a wall so as not to protrude from the wall and obstruct thoroughfares. The basin is supplied pre-plumbed with fully certified, prison-grade timed flow, automatic shut off tapware to prevent tampering. Free of ligature and leverage points and all fixings are concealed and installation is done from the rear of the unit. Security waste is optional.

sample spec. text
