about

The *BRITEX Centurion Ambulant Toilet Pan* is fully shrouded and manufactured from heavy gauge grade 304 satin S.S. making it easy to clean and providing optimal strength. It is designed with respect to ambulant users. Incorporating radius edges for added safety, a pressed internal bowl and unique trap design, the Centurion Ambulant pan is extremely water efficient and much less susceptible to costly blockages in public amenities. Access panels come standard on both sides of the pan for easy installation and a toilet seat can be fitted if required. Britex toilet pans are identified as dual flush "High efficiency water closets" certified with a universal, water consumption dependent on applicable regional regulations. The minimum static water pressure required for operation is 20 Psi (140 kPa) with a maximum static water pressure of 80 Psi (550 kPa). Flushing device should be of an approved capacity and in accordance with local authority requirements.
