

Britex Stainless Steel Benches & Shelves

Food Grade Stainless Steel Benches & Shelves

Made from Grade 304 or Grade 316 acid resistant stainless steel, Britex stainless steel benches and shelves are known to be robust, practical and reliable, easy to maintain yet aesthetically pleasing.

All of our products come with a warranty for your peace of mind.

Britex also manufactures and supplies a comprehensive range of quality stainless steel benches, sinks, shelves and custom-made products to suit every need. We are proud to offer an extensive product range that is backed by over 35 years experience in the industry. Our team of skilled craftsmen are passionate about manufacturing the best quality products.

We supply dirty utility sink, laboratory benches, stainless steel shelves, Bed Pan & Bottle Rack and benchtech range. Our Benchtech range of commercial kitchen benches and shelves provide extra storage space.

Whether you're looking for a commercial kitchen bench, a laundry trough or a custom-made product, we can help.

Britex Stainless Steel Food Grade Benches for Commercial Kitchens, Canteens, Restaurants & Cafes

Britex offers a good range of high quality stainless steel tables for commercial kitchen applications. Made from Grade 304 or Grade 316 acid resistant stainless steel, our benches and shelves are durable and practical for busy working environments.

Britex also specialises in custom lengths and fit-outs. For customised kitchen benches to suit your commercial or industrial application like Commercial Kitchens, Canteens, Restaurants & Cafes.

Not only are they heavy duty, durable and hygienic, but these stainless steel benches and shelves also have high resistance against rust and corrosion, perfect for commercial and industrial applications. Britex offers a good range of stainless steel splashback benches, sink benches, pipe shelves, flat sheet shelves, and workbenches, in various sizes and dimensions. The BenchTech modular system is built to true commercial specifications, and can be integrated with custom-made Britex benches and shelves.

Britex specializes in custom lengths and fit-outs. If you require customised stainless steel commercial sinks, shelves or other solutions to suit your application, please contact our team today.

Types of Stainless Steel Benches

- **Splashback benches for kitchens or cafes: Bench Length: 900mm, 1200 mm, 1500 mm, & 1800 mm**

Ideal for teaching kitchens or cafes, Britex splashback benches are available in 900mm to 1800mm lengths. These come with a high splashback to keep the surrounding area clean, as well as a hygienic and easy-to-clean stainless steel countertop.

- **Single & Double Sink Benches for kitchen installations: Bench Length: 900mm, 1200 mm, 1500 mm, 1800 mm & 2400mm**

Our sink benches are made for new kitchen installations or to be integrated into an existing space with custom features. They come supplied standard with a benchtop, legs, and a pipe undershelf (commercial stainless steel sinks with drainboards). The Britex sink benches are made from 1.2mm grade 304 stainless steel, complete with a 2.0mm corrosion resistant zinc plated steel substrate. Options include single or double sinks, and right hand or left hand application.

- **Pipe shelves**

The Britex pipe shelf is made from 1.2mm stainless steel in commercial grade 304 with a satin finish. Strong and durable, this multi-use shelf is a cost-effective option for various commercial settings, including canteens, cafes and restaurants. The pipe shelf is available in various standard sizes, and can also be manufactured to custom lengths to suit your application.

- **Flat sheet shelves**

Hung on wall mounted brackets, our stainless steel flat sheet shelf is manufactured from 1.2mm thick stainless steel in commercial grade 304 or acid resistant grade 316 stainless steel. Fully customisable, these flat sheet shelves are typically 350mm wide overall, and are a great option to save floor space.

- **Work benches for commercial kitchens, cafes and restaurants**

Our range of work benches are designed to seamlessly fit into commercial kitchens, cafes and restaurants. These work benches have a stainless steel worktop (stainless steel kitchen benchtop) mounted on solid stainless steel legs with a sturdy undershelf for extra storage space. Our work benches also come with 150mm splashbacks to keep the surrounding area clean.

- **Flat Island Benches: 900mm, 1200 mm, 1500, & 1800 mm:** Ideal for teaching kitchens or cafes with stainless steel legs.

- **Mobile Stainless Steel Benches: 900mm, 1200 mm, 1500, & 1800 mm:** Ideal for teaching kitchens or cafes comes with castor wheels.

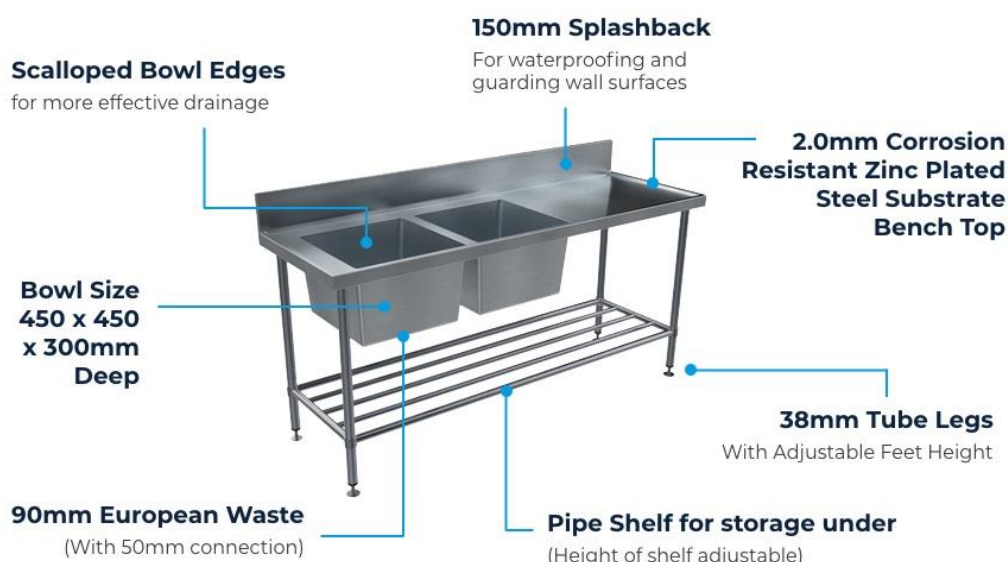

Bench Options

- **Wet Bench**
Specially designed to prevent spillages, wet benches usually come with splashbacks and raised edges to stop liquids from splashing or spilling onto the surrounding environment. Wet benches are ideal for commercial kitchens or food processing applications, as they are easy to clean, hygienic, and durable.
- **Dry Bench**
Dry benches are most suited for dry applications, as they have a flat surface without any raised edges or splashbacks. These stainless steel benches are robust and durable, and easy to clean, making them a good option for a wide range of applications.
- **Corner Bench: 150mm splashback**
If you want to optimise your kitchen design and space, corner benches are a practical solution. These are perfect to connect the corner in between two walls, allowing you to maximise the functionality and use of that space.

Dimensions

Britex kitchen benches come in various standard sizes that are in line with industry specifications. However, our benches can also be manufactured to custom dimensions and lengths to suit your application. Whether you need a full kitchen fit-out or to integrate with existing benches and shelves for extra storage space, let us know your requirement and we will be able to work out a solution for you.

Commercial grade 304 SS with satin finish

Categories of Benches and Shelves

- **Dirty Utility Sinks for Health Care**
Our dirty utility sink comes in a standard design for health project 'Dirty Utility' rooms. It includes a flushing rim (sluice) sink and a standard bowl, and is fully customisable to fit into your application.
- **Laboratory Benches**
These high quality benches are manufactured from grade 304 or acid resistant grade 316 stainless steel, and are designed specifically for laboratory applications. They feature extra high splashbacks, and large integral bowls, and can be made to custom lengths.
- **Bed Pan & Bottle Rack for Aged Care**
The Britex stainless steel bed pan and bottle rack is designed for drying specimen bottles and bed pans in hospitals and aged care facilities. Manufactured from 1.2mm commercial grade stainless steel sheet and 10mm stainless steel rod, our bed pan and bottle rack can be made to various capacities according to your requirements.
- **Shelves**
Our shelving options include wall shelf, pipe shelf, flat sheet shelf, and square tube shelf. All our shelves are manufactured from 1.2mm thick stainless steel in commercial grade 304 in a satin finish. Available in various sizes as well as custom lengths, these shelves are ideal for commercial kitchens, cafes and restaurants.
- **BenchTech for complete Kitchen Fit-Outs**
The Britex BenchTech system provides absolute value for money, and can be used for complete kitchen fit-outs or integrated with other custom Britex benches and shelves. Built to true commercial specifications, our BenchTech range is made with grade 304 stainless steel to guarantee its reliability and durability, and is backed by a lifetime warranty.

Benches for Various Applications

Stainless steel benches are robust, low maintenance, and easy to clean, making them well suited for a wide range of applications.

Due to their ability to withstand heavy use and resist corrosion, stainless steel benches are especially ideal for environments where food industry (stainless steel food grade benches) ingredients or chemicals may be exposed.

Britex stainless steel benches are suitable for commercial kitchens (**stainless steel kitchen benchtop**), hospitality fit-outs (such as in hotels, restaurants and cafes), laboratories, schools, hospitals, and security projects.

Features

When looking for the right stainless steel benches, there are a few important things to consider, including:

- **Warranties** - Quality assured products are proof of the manufacturer's confidence in their products, and therefore gives you peace of mind knowing that you are investing in high quality products.
- **Quality** - Take note of the materials used and other product specification to ensure that the quality of the stainless steel benches would be up to standard for your applications.
- **Suitability for the Australian Market** - Always check that the benches are suited to the Australian standards and requirements, as designs do vary internationally.
- **Design options** - Consider the layout of your kitchen and what could work best. Your fixtures should work around your needs.
- **Customisation** - Some applications require customisation. In addition to our extensive range of standard options, Britex specialises in custom fabrication, so you get exactly what you need.
